

Introducing an Uncompromising,
& innovative new
design to complement the
LPG System on your Boat.

In keeping with the quality and style that
Trident Marine has become known for,
this locker is built to be affordable
without compromising design.

TRIDENT MARINE®

Because you Love your Boat

Constructed of a UV protected molded polymer. Double-walled lid for added toughness. Stainless steel hardware, durable latching system & foam seal.

Kitted lockers come standard with:

Regulator assembly with a leak test gauge • QCC (Quick close) Pigtail for ease of connection without the need for tools • Brass solenoid valve

Trident LPG basic control panel • 2 Straight thru fittings • Thru hull fitting for ventilation
